## Profile

Studying architectural technology at *Cégep de Saint-Laurent*, I learned to design project plans, draw details, create concepts, and present ideas. By witnessing the beauty of the urban planning chaos of Tokyo in 2016, I, for the first time, was hit by the impact of architecture and its importance. In 2017, I discovered the creativity bubbling in the heart of Naoshima island and was amazed by the magnificence of the incredible work of Tadao Ando.

-Interests: Architecture, design, conception, trains, Japan, and Tadao Ando

## Experience

Tutor in architectural technology (*Cégep de Saint-Laurent*) – 2022 to present  
I am currently a tutor for the architecture program at my college.

Participation in two international architecture competitions (Arkitekturo) – 2021-22  
For two consecutive years, I participated in the Arkitekturo competitions. In 2021, the goal was to present a new campus for the BAUHAUS school. In 2022, we needed to make a memorial/library for Mies Van der Rohe.

Construction of the international garden festival (Reford Garden) – 2021 (May-July)  
By working on projects from architects and landscape architects, this internship provided me with new angles of seeing architecture. Furthermore, working alongside other interns with similar interests deepened my knowledge of the field.

Seller at a goat cheese counter (Jean-Talon Market) – 2019-20  
I managed a small goat cheese counter at the city market. This job helped build better customer service skills and more.

## Formations

Construction site security formation (ASP) — 2020  
I successfully completed the safety course for construction site visits.

Formation in photography – 2014-15-16-17-18  
During the five years at *Club des Réflex*, I learned to use different types of cameras, learned the basics of good composition, and used software like Lightroom.

## Competencies

-Bilingual (French and English)  
-Intermediate in InDesign, Lightroom, Revit, SketchUp, and the Office suite  
-Beginner in AutoCAD and Photoshop

## Education

-I am currently finishing my second year in architecture at *Cégep de St-Laurent*.
